March 11, 2020

Dear Parents,

As you make plans for March Break activities and travel, the current situation regarding the spread of COVID-19 requires that your plans include careful research with the exercise of prudent caution. Before embarking on a trip abroad please refer to the travel advisories on the Government of Canada website at <https://travel.gc.ca/travelling/advisories>. Since the current situation is quite fluid, these advisories will change frequently and may change for your destination during your vacation.

1. If you travel to a country that is listed to ***avoid***, you will likely have to be quarantined upon your return. Your children attending our school will be required to self-quarantine for a two week period. They will not be permitted to attend school for two weeks.
2. If you travel to a country that is listed as ***exercise a high degree of caution***, the school **may** require your children to self-quarantine for two weeks, depending on current advisories upon your return.
3. If you do not travel abroad, but do engage in activities involving large groups of people, exercise caution and ensure that you and your children wash hands with soap frequently and monitor for any symptoms. If symptoms become evident, seek advice from a physician.

More Information can be found on the following websites: Ontario Ministry of Health:
